The street entrance for Tufts Children's Hospital is at 755 Washington St. behind the Skippy the Bear sculpture next to the large hospital sign and directly across from main entrance at 800 Washington St. You'll know you are inside Tufts Children's whenever you see the colorful Toughlings wall murals.

Get there through the Third Floor Corridor: Getting to many points in the hospital is easiest using the third floor corridor, which connects all our buildings.

From the garage, take the stairs and exit at the 3rd floor. Take a right towards the Atrium. Look for the signs for Tufts Children's Hospital (Floating Bldg.) elevators and the Toughlings murals.

For an accessible route, take the garage elevator to the Ground level. Enter the building (you will be on the Plaza Level of Floating Hospital) and follow the corridor left to the elevators. Take these elevators to your floor.

From other hospital buildings: From Biewend, Proger, North, or South Buildings, take any elevator to the 3rd floor corridor. Follow the the 3rd floor corridor to the Atrium. From the Atrium, follow the signs for Tufts Children's Hospital between the Chopp'd and Topp'd restaurant and the Atrium 3 Pharmacy. Follow the corridor about ½ way down to the Tufts Children's (Floating Bldg.) elevators. Look for the Toughlings murals.
