

HOW TO GET TO PRATT/FARNSWORTH BUILDINGS

Pratt and Farnsworth are next to the Proger Building and the Atrium. Note that the floor numbers do not match the numbers in Proger. From the 2nd floor up, each floor is one number higher than Proger (i.e., Proger 3 becomes Pratt 4). Also note that not all Pratt floors are accessible from Proger. Once in the Pratt Building, there is an elevator located in the middle of the hall that will take you to other floors in Pratt. To reach Farnsworth, keep walking to the end of the hall. Take a left to the Farnsworth elevator bank.

Get there though the Third Floor Corridor: Getting to many points in the hospital is easiest using the third floor corridor, which connects all our buildings.

From the garage, take the stairs and exit at the 3rd floor. Take a right towards the Atrium. As you approach the Atrium, stay left to Proger. Your first right will take you to the Pratt Building.

For an accessible route  take the garage elevator to the Ground level. Enter the building and follow the corridor left to the Tufts Children's Hospital elevators (you will be on the Plaza Level of the Floating Bldg.). Go up two floors to the 3rd floor, exit the elevator bank and go left towards the Atrium, keeping left to Proger.

From other hospital buildings: From Floating, Biewend, Proger, North, or South Buildings, take any elevator to the 3rd floor corridor. Follow the the 3rd floor corridor to the Atrium. As you approach the Atrium, stay left to Proger. Your first right will take you to the Pratt Building.
