

HOW TO GET TO BIEWEND BUILDING

The **Biewend Building** main entrance is located at 260 Tremont St, under the Wang Theatre/Boch Center marquee, just down from the Tremont St. entrance to the Parking Garage. Take the lobby elevators to your floor.

Get there though the Third Floor Corridor: Getting to many points in the hospital is easiest using the third floor corridor, which connects all our buildings.

From the garage, take the stairs and exit at the 3rd floor. Take a left into the corridor. Follow this to enter the Biewend Building. You will see Phlebotomy (blood draw). Follow the hallway past the Infectious Diseases Clinic to the end and turn right. There you will see the Biewend building elevators and directory.

For an accessible route take the garage elevator to the Ground level. Enter the building (you will be on the Plaza Level of Floating Hospital) and follow the corridor left to the Floating Hospital red elevators. Take these elevators up to the third floor. Exit the elevator bank and turn right into the hallway. Follow this to Biewend and directions above to the Biewend elevators.

From other hospital buildings: From Proger, North, or South Buildings, take any elevator to the 3rd floor corridor. Follow the 3rd floor corridor signs to the Atrium. Follow the Atrium to the signs for Floating Hospital between the Chopp'd and Topp'd restaurant and the Atrium 3 Pharmacy. Follow the corridor around 3 turns to Biewend. From any point in Floating, follow the accessible directions above.
